Industrial Supplies & Fulfillment

Available for immediate delivery from central Mexico

Global Liugong quality, now backed by a partner who understands
your operation.

WAREHOUSE WAR MACHINES

At Nexuply, we know an efficient material flow starts with the right equipment.

That's why we maintain a robust inventory of Liugong forklifts, ready for immediate delivery from our warehouse in central Mexico.

From automotive plants to logistics centers and manufacturing lines, we offer rugged machinery, proven technology, and a service team that truly gets how your operation runs.

REAL VALUE, DELIVERED WITH STRONG PARTNERS AND A SOLID GUARANTEE

At Nexuply, we're more than just a machinery distributor.
We integrate solutions that optimize your operation.

Beyond global backing, we bring local expertise with a team
that centralizes your procurement, ensures reliable availability,
on-time delivery, and hands-on operational support.

INTERNAL COMBUSTION FORKLIFTS – CUSHION TIRES

Liugong offers Class 4 internal combustion forklifts with cushion tires, designed for indoor or mixed-use.

From dock to final pallet, these battle-ready machines are agile and efficient — equipped with full-suspension seats, horn-on-handle controls, and flip-down LP tank brackets for operator-friendly handling.

With 250-hour service intervals and easy access to service points, downtime stays low and maintenance stays simple.

Combustión Interna, Cushion				
Model	Capacity		Engine	Fuel Type
CLG2025G-C	2500 kg	@500 mm LC	Kubota	LPG

INTERNAL COMBUSTION FORKLIFTS – PNEUMATIC TIRES

Liugong's Class 5 IC forklifts with pneumatic tires come in over a dozen configurations, from 1,500 to 12,000 kg capacity.

Powered by diesel or LP, they're ideal for outdoor use and wide-aisle environments like home improvement centers, lumber yards, foundries, and steel mills.

Tough environments, rough terrain, and heavy loads? These machines don't flinch.

Full-suspension seats keep operators comfortable. 250-hour service intervals and easy-access maintenance points keep operations smooth.

Internal Combustion – Pneumatic Tires				
Premium model	Capacity		Engine	Fuel type
CLG2050/60/70H	5-7000 kg	@600 mm LC	Cummins	Diesel

WE MAKE IT EASY

At Nexuply, we offer more than forklifts. We provide end-to-end support: operational guidance, after-sales service, readily available parts, and technical assistance to keep your business moving. We handle the complex. You focus on moving forward.
